FLSMIDTH CEMENT SEMINAR

Solutions for the cement industry

PURPOSE OF THE SEMINAR

This year, FLSmidth offers a combination of knowledge and offerings of FLSmidth Cement for South America, Central America and the Caribbean in a two-day seminar, free of charge to our customers, to be held in Panama.

We would like to invite you and your organization's strategic employees to join the seminar and participate in our mission to present and demonstrate the importance of sustainable productivity in the cement industry.

Choosing the right solutions means saving millions in energy and wear costs, increasing throughput, and improving the quality of clinker for our customers.

Therefore, the seminar will focus on the latest full flowchart technologies and service offerings available at FLSmidth from a strategic and investment point of view.
